LIBRARY AUTOMATION SOFTWARE PURCHASE

012/
Lib.

18.07.2016

From
Dr. N. Ashok Kumar
Assistant Librarian,
TNPESU,
Chennai – 127

To
The Registrar
TNPESU,
Chennai – 127.

Sir,

Sub: Request letter to Upgrade Library Automation Software – Reg.

Ref: NICE/15-16/1, Dated. 05/01/2016.

****

I hereby bring to your kind notice that, this University has purchase Nirmals Library Automation Software in the year 2008 from Nirmal Institute of Computer Expertise, Trichy. The purchased software was installed in Library computer. Now the computer in which the software installed is showing hard disk space error. We have consulted with the hardware engineer to rectify the error. The engineer advises to upgrade the computer and install the Library automation software in the new system. Based on their suggestion we have informed the proprietor **S. Venugopal** to install the existing software in new system, supplied to our University Library. With reference to the letter above the supplier stated that the support and service for existing customers has been stopped with effect from 31st December 2015. And he has requested this University to Upgrade the software with new version Nirmal suite 2014.

I here by bring to your kind notice that if the existing hard disk crashes then the entire Library database will be lost. Therefore to over come the above situation this University has no other option that to switch over to the new version of Nirmal suite 2014 software.

P.T.O

Hence, I recommend and request to upgrade the Library Automation software, there by the Library data will be retrieved and software features be enhanced for smooth functioning of University Library. If the request is approved a sum amount Rs.55,000/- (Rupees Fifty five thousand only) claimed by the supplier for up gradation of software be sanctioned and cheque in favor of "Nirmal Institute of Computer Expertise" may be drawn.

Thanking you,

Yours sincerely

(Assistant Librarian)

NIRMALSUITE™ 2014
A STATE-OF-THE-ART LIBRARY MANAGEMENT PACKAGE

Neither do people pour new wine into old wineskins. If they do, the skins will burst; the wine will run out and the wineskins will be ruined. No, they pour new wine into new wineskins, and both are preserved.
Matthew 9:17

We have no option but to settle with Windows10 / Windows Server 2008(and above) —the latest Operating Systems as Microsoft has stopped support, service and security to all the previous versions—Windows XP / Windows 2003 / shortly Windows7.   In keeping with the biblical wisdom, NICE has brought out the new version NirmalSuite2014, compatible with Windows10 / Windows 2008 plus.

NirmalSuite2014 has been designed with future-proof technology, deploying the latest SQL servers Oracle11g, MS Sql Server 2008 as back-ends and VB.Net 2010 /JSP/PHP as front-end tools.

For more than 300 existing customers, we have offered an attractive discount price. It is not advisable to run the programs on outdated operating system. We are constrained to stop our support and service to the old version effectively with 31st December 2015, and thereafter we may not be in a position to offer any service.   You had better not to gamble with your library database, which is subject to security threat and portability problem.

It is right time to plan your transition smoothly. We guarantee that your entire database will be migrated to the new version without any loss of data.

We have enclosed our new brochure outlining the new programs and hardware requirement recommended for smooth running. To have a preview of the programs, please visit our website: www.NiceWorld.in.

Looking forward to continuing our co-journey exploring the exciting new library world,

Yours professionally,
